Arab Gold

JUST DISCOVERED IN THE HOLY LAND

400 YEAR OLD GOLD COINS OF
"SULEIMAN THE MAGNIFICENT . . ."
REBUILDER OF JERUSALEM.
OFFERED HERE FOR THE FIRST TIME
AT SPECIAL LOW "HOARD PRICES"

The Moslems, like the ancient Jews, forbade the use of images in art . . . and therefore on their coins. Thus the coin inscriptions themselves, in beautiful calligraphy were both informative and beautiful. Arabic, like Hebrew, is written from right to left. Because certain characters may or may not be joined to their neighbors according to complex rules, and the fact that there are no capital forms of letters, the reading of these inscriptions is difficult to Western eyes. But no one can doubt their great artistry!

The Arab language did more than decorate their coins. When in the 7th and 8th centuries A.D., the Arab armies conquered territories stretching from the shores of the Atlantic (Spain) to Sind (Pakistan), they brought to the conquered peoples a unifying new religion . . . and a new language. The Arabic language was a principal factor in uniting these peoples, who otherwise differed widely in race, language and culture.

On a recent trip to the Holy Land, we were most fortunate in obtaining a small hoard of high quality gold coins minted in the Middle East by one of its most famous rulers — Suleiman the Magnificent (1520 — 1566). These gold coins, grading Very Fine or better, are about the diameter of a U.S. $2½ Gold Coin . . . but even though they are over 400 years old they are still priced at less than the U.S. Quarter Eagle!

Suleiman the Magnificent is particularly remembered because of his improvements to the Holy City of Jerusalem. Jerusalem had been wrested from the Arabs by the Ottoman Turks in 1517. It was made a province of the Ottoman Empire and remained as such up to World War I. Suleiman increased Jerusalem's supply of drinking water by repairing the aqueducts and erecting fountains. He overhauled the fortifications of the much fought-over city; the present wall together with the Damascus Gate and the famous Tower of David date from his rule. And Suleiman had the exterior walls of the Dome of the Rock decorated with marble and mosaics. His was virtully the only administration that made contributions to the Holy Land in the 400 year history of Turkish occupation!

The gold coins of Suleiman the Magnificent offer a unique combination of precious metal and historical importance. That they are still under-priced in today's hectic numismatic marketplace goes without saying. Here's your opportunity to acquire one or more at a very spcial "hoard price." But don't wait . . . judging from our past offers of hoard coins, these will sell out quickly at just $145.00 each or 2 for only $250.00.

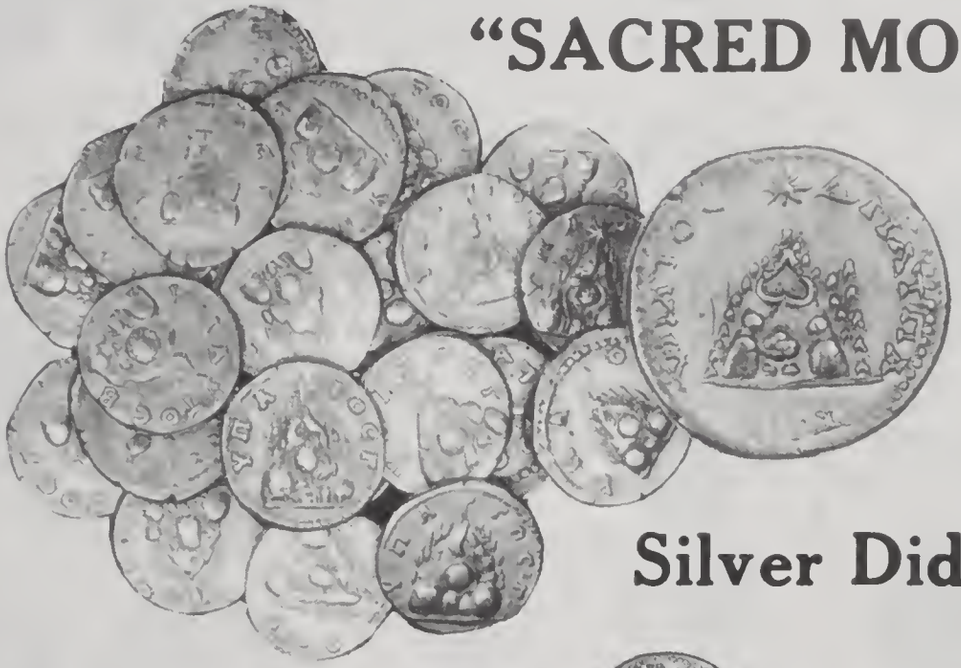
"SACRED MOUNTAIN"



Reduced Prices

Silver Didrachms

LUCIUS VERUS, 161-169 A.D.
With sovereignty, Verus ruled by principles exhibitting looseness of morals and indulging in the excesses of a licentious way of life.

COMMODUS, 177-192 A.D.
Son of Marcus Aurelius but having inherited nothing of the father's nobility, Commodus devoted himself to a life of depraved abandon, deluded into believing that he was the Roman incarnation of the god Hercules.

In ancient times mountains were often considered holy sites, such as Mount Sinai where Moses received the Ten Commandments, the Samaritans' Mount Gerizim, and Mount Ararat in Turkey where Noah's Ark is thought to have come to rest. While these places are relatively well-known, there is another sacred mountain whose sanctity is still shrouded in mystery. In fact, its significance is only alluded to by esoteric representations on certain ancient coins.

This sacred mountain is named Argaeus . . . and the coins on which it is depicted were minted during the Roman Period at Caesarea in Cappadocia, a city which appropriately sat at the foot of the impressive 13,000 foot high mountain.

Ancient Cappadocia was located in Asia Minor, at the crossroads of the civilizations of Persia, Syria, Armenia, Judaea and Rome. It was made a Roman province by the Emperor Tiberius. Claudius was the first to issue coinage from the city of Caesarea, which evolved into the chief imperial mint for the Roman dominions in the East.

As on many Roman Provincial issues, the inscriptions on these Silver Didrachms are written in Greek, but in art-style and appearance, the coins are thoroughly Roman. Most strikingly, Roman models were closely followed in the renderings of the imperial portraits. The Silver Didrachms of Caesarea in Cappadocia may, therefore, be regarded as the connecting link between the Western and Eastern coinages of the Roman Empire during the first two and a half centuries of the Christian era, and, as such, offer unique interest to numismatists and historians alike.

A small hoard of less than one hundred Silver Didrachms which Superior has acquired contains a good assortment of these fascinating "Sacred Mountain" types in Very Fine condition, issued by the Roman Emperors Lucius Verus (161-169 A.D.) and Commodus (177-192 A.D.). We are pleased to offer these now at a very modest "Hoard Price" . . . just $85.00 each or two Emperors for $150.00. Because of the very small quantity available, these eighteen hundred year old Silver Didrachms will be sold on a strictly first-come, first-served basis. Rush your order to us today, or you may reserve your coins by calling our toll-free number (800) 421-0754; within California call (213) 278-8740.

Please rush me the select Very Fine Silver Didrachms of the Sacred Mount Argaeus type from Caesarea in Cappadocia indicated:

1930-S ORIGINAL LINCOLN PENNIES FOUND

You will never believe where we found these beautiful coins. They were filed away with circulated specimens in our inventory years ago and all we can tell is that when they were put away they probably were worth very little. So that's exactly how we are going to treat them, like they were worth very little and that's what we're charging. Let's grade these lovely original full mint bloom cents as Mint State 65 and a few specimens which have some very minor discoloration as Mint State 63. You take your choice.
